

PWS Information

Purpose of this worksheet: For water systems to document basic system information.

Facility Information

Water System Name:

Allegheny County Water District

PWSID:	Population Served (number of people):	Number of Service Connections:	PWS Type:
CA4600012	73	52	<input checked="" type="checkbox"/> CWS <input type="checkbox"/> NTNCWS

Mailing Address

Street or P.O. Box:

PO Box 860

City or Town:	State:	Zip Code:
Allegheny	CA	95910

System Contact Person

Name:	Title:
Rae Bell Arbogast	General Manager
Telephone:	Email:
530-287-3454	alleghenywater@gmail.com

Person Who Prepared Inventory (if different from above)

Inventory Methodology

Enter Date Last Updated: _____

Purpose of this worksheet: For water systems to document the methods and resources they used to develop and update their inventory.

Part 1: Historical Records Review

Type of Record	Describe the Records Reviewed for Your Inventory
1. Construction Records and Plumbing Codes <i>Examples: Local ordinance adopting an international plumbing code. Permits for replacing lead service lines.</i>	1977 As Built Plans from USDA funded project to update water tank, water mains, meters, fire hydrants etc. 1995 As Built Plans for additional project to bring system into compliance with surface water regulations, funded by the Community block grant program.
2. Water System Records <i>Examples: Capital improvement plans. Standard operating procedures. Engineering standards.</i>	O&M Manual
3. Distribution System Inspections and Records <i>Examples: Distribution system maps. Tap cards. Service line repair/replacement records. Inspection records. Meter installation records.</i>	System Maps are part of schematics mentioned above.
4. Other Records	Relied on personal memory of water operators and repairmen who work in Alleghany.

Part 2: Identifying Service Line Material During Normal Operations

1. During which normal operating activities are you collecting information on service line material? Check all that apply.

- | | |
|--|--|
| <input checked="" type="checkbox"/> Water meter reading | <input type="checkbox"/> Water main repair or replacement |
| <input checked="" type="checkbox"/> Water meter repair or replacement | <input type="checkbox"/> Backflow prevention device inspection |
| <input checked="" type="checkbox"/> Service line repair or replacement | <input type="checkbox"/> Other |

If "Other", please explain:

2. Did you develop or revise standard operating procedures to collect service line material information during normal operation? No

If "Yes", please describe:

Part 3: Service Line Investigations

1. Identify the service line investigation methods your system used to prepare the inventory (check all that apply).

- | | |
|--|--|
| <input checked="" type="checkbox"/> Visual Inspection | <input type="checkbox"/> Water Quality Sampling - Other |
| <input checked="" type="checkbox"/> Customer Self-Identification | <input type="checkbox"/> Predictive Models or Statistical Analysis |
| <input checked="" type="checkbox"/> Pipe Dating | <input type="checkbox"/> Interpolation |
| <input type="checkbox"/> Pipe Diameter | <input checked="" type="checkbox"/> Interviews |
| <input type="checkbox"/> Water Quality Sampling - Targeted | <input type="checkbox"/> Emerging Methods |
| <input type="checkbox"/> Water Quality Sampling - Flushed | <input type="checkbox"/> Other |
| <input type="checkbox"/> Water Quality Sampling - Sequential | |

If "Other" or "Emerging Methods," please explain:

2. If "Predictive Modeling" or "Interpolation," please briefly describe the model and inputs used.

3. How did you prioritize locations for service line materials investigations? For example, did you consider environmental justice and/or sensitive populations, did you use predictive modeling, and/or did you target areas with high number of unknowns?

N/A

Public Accessibility Documentation

Enter Date Last Updated:

11/01/24

Purpose of this worksheet: For systems to provide documentation to states on how they met the public accessibility requirements of the LCRR.

1. Select the location identifiers that you use for your service line inventory. Check all that apply.

- Address
- Street
- Block
- Intersection
- Landmark
- GPS Coordinates
- Other

If "Other", please describe:

Account #

2. Does **every service line** have a location identifier?

Select "Yes" or "No"

If "No", explain. Remember that location identifiers are required for service lines that are lead and galvanized requiring replacement.

YES

3. How are you making your inventory publicly accessible? Check all that apply. Remember that if your system serves > 50,000 people, you **must** provide the inventory online.

- Interactive online map
- Static online map
- Online spreadsheet
- Printed service line map
- Printed tabular data
- Information on water utility mailings or newsletter
- Hard copy information available in water system office
- Other

If "Other", please describe:

Link sent to customers.
